

FEMA

R0353

Dear National Fire Academy Student:

By now you should have received your acceptance email notification from the National Emergency Training Center (NETC) Admissions Office for this course. If you have not, you are not enrolled in this course.

Congratulations on being accepted into the U.S. Fire Administration's/National Fire Academy's (USFA's/NFA's) *Community Education Leadership--One Week* (CEL) course. *CEL--One Week* teaches students contemporary leadership elements necessary for successful comprehensive community education, including striving for personal commitment in community education and obtaining organizational and community support. The course teaches students to identify community issues and diverse target populations and how to select appropriate methods for reaching diverse groups. Students learn to address the most critical fire and life safety issues for a community and write measurable performance objectives.

We realize that each organization often has very different support systems and levels of sophistication in fire and life safety education. We ask you not to get "hung up" on trying to think that you and your organization will have everything that we ask you to bring to class. **It will be helpful if you can bring the following items to class.**

1. A mission statement from your organization and, if available, a description of the prevention/education function.
2. Bring with you a problem that you would like to address in your community to be used in class activities (i.e., falls to the elderly, kitchen burns to pre-school children). Although not essential, you are encouraged to bring data, goals/objectives and any other program information regarding this problem.
3. We often make time for students to share their programs with one another. You are encouraged to bring any educational program, media piece, or even high-tech program that your organization uses in the area of fire or life safety education.

It is important to note that this is a 6-day class, and the first day of class will begin on Sunday at approximately 8 a.m. just after orientation. Orientation will normally commence at 8 a.m.; however, make sure you confirm this when you check in. Subsequent classes will meet daily from 8 a.m. to 5 p.m. with graduation occurring on Friday at 4 p.m. Because of this schedule, you will be provided lodging for Friday night. Evening classes may be required.

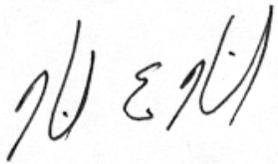

End-of-class graduation ceremonies are an important part of the course, and you are expected to attend. Please do not make any travel arrangements to leave campus until after you and your classmates graduate.

The course materials for this course are now available in a Bring Your Own Device (BYOD) format which will function on any electronic device. If you own an electronic device (laptop computer, tablet, etc.) and are familiar with its document reader functions, we are asking you to download the Student Manual (SM) **before you travel to Emmitsburg** and bring the preloaded device with you. Please see the page following this letter for complete instructions on successfully downloading your course materials. Please note: If you plan to bring/use an iPad, you may experience issues saving/storing/printing course assignments since there is no USB/thumb drive capacity for these devices.

For your information, the NFA classroom environment is PC based. As increasing numbers of students and instructors are bringing laptop computers or other electronic devices to campus you alone are responsible for the security and maintenance of your equipment. The Academy cannot provide you with computer software, hardware, or technical support to include disks, printers, scanners, etc. Classrooms are outfitted with surge protectors at each table for your convenience. Thumb drives or external hard drives used to bring course materials to class cannot be connected to FEMA property without being scanned for viruses. Due to time limitations for scanning, these devices cannot be larger than 8 GB. Anything over this amount will not be scanned and cannot be used. A Student Computer Lab is located in Building D and is available for all students to use. It is open daily with technical support provided in the evenings. This lab uses Windows 7 and Office 2013 as the software standard.

Should you need additional information or have any questions pertaining to course content or requirements, please contact Ms. Mary Marchone, Fire Prevention Management Curriculum Training Specialist, at (301) 447-1476 or email at mary.marchone@fema.dhs.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Kirby Kiefer". The signature is written in a cursive style with some loops and flourishes.

Dr. Kirby Kiefer, Acting Superintendent
National Fire Academy
U.S. Fire Administration

National Fire Academy Bring Your Own Device (BYOD) Course Materials/Download Instructions

The **first step** is to download ADOBE Reader to your device. This will enable you to read and manipulate the course materials. ADOBE Reader can be used to comment and highlight text in Portable Document Format (PDF) documents. It is an excellent tool for note-taking purposes.

For Laptops and Computers

ADOBE Reader can be downloaded from www.adobe.com/downloads/. It is a free download. Please note that depending on your settings, you may have to temporarily disable your antivirus software.

For Tablets and Other Similar Hand-Held Devices

ADOBE Reader can be downloaded onto devices such as iPads, android tablets, and other hand-held devices. ADOBE Reader for these types of devices can be found in the device's Application Store using the search function and typing in "ADOBE Reader." Follow the instructions given. **It is a free application.** Note: In order to have the editing capabilities/toolbar, the document needs to be "opened with ADOBE Reader." There should be a function on your device to do this.

After you have successfully downloaded the ADOBE Reader, please use the following Web link to download your R0353, *Community Education Leadership--One Week* (CEL) Student Manual (SM). (You may copy/paste this link into your Web browser.)

http://nfa.usfa.dhs.gov/ax/sm/sm_r0353.pdf

Note: Please make sure you download the ADOBE Reader first. To open the SM, you will need to open the ADOBE Reader and then open the SM through the ADOBE Reader in order for the note-taking tools to work properly.

If you need assistance, please contact nfaonlinetier2@fema.dhs.gov.
